# ABOUT INTCO

## Becoming a Global Leader in High-tech Recycled Resource Manufacturing.

INTCO Recycling (688087.SH) is a high-tech manufacturer specializing in resource recycling. The company is engaged in the recycling, regeneration, and utilization of renewable resources. It has innovatively integrated the entire industry chain of plastic recycling and reuse, making it a pioneering enterprise that seamlessly combines plastic recycling with the production of fashionable consumer goods. Headquartered in Zibo, Shandong, with production bases in Shanghai, Anhui, Jiangsu, Malaysia, and Vietnam. The company has more than 3400 employees.

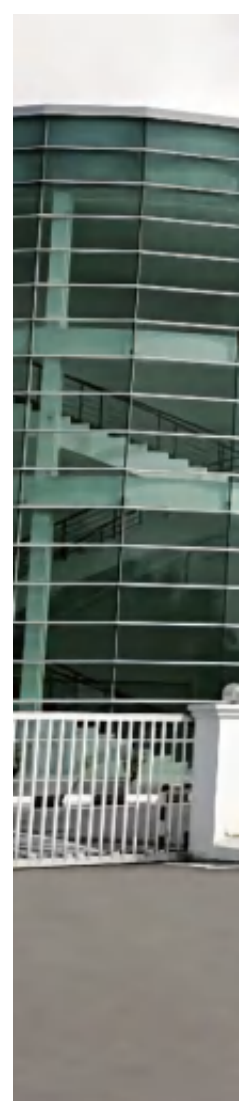

Independently developed a range of GREENMAX compactor machines that compress waste foam blocks to 1/50 while PET plastic bottles to 1/10 of their original volume in minutes. With these technologies, INTCO Recycling has helped more than 1,000 recycling stations in 80 countries improve their recycling efficiency and reduce operating costs.

As a global provider of solutions for the entire plastic industry chain, Our business has covered Styrofoam compactor machines, recycled plastics, high-quality household and consumer goods, including mouldings, picture frames, mirrors, wall panels, home furnishings r-PET sheets and food package, r-pet sheets and food package to customers in more than 120 countries and regions.

As an environmentally friendly business, INTCO Recycling has the annual capacity to recycle 100,000 tons of EPS foam, and 50,000 tons of PET bottles to food-grade PET plastics, has reduced 200,000 tons of carbon emissions, saved 300,000 tons of crude oil, and protected 2 million trees every year. At the present, INTCO Recycling has eliminated 2.5 million tons of global carbon emissions, reduced 3.75 million tons of crude oil expenditure, and saved 25 million trees!

In the future, INTCO Recycling will take advantage of its end-to-end supply chain recycling solution to enlarge its "plastic family" by spanning the recycling of multiple types of plastics such as PE, PP. Driven by proactive innovation, continue to promote the plastic recycling technology, become a global leader in resource recycling, and contribute to sustainable development in the new global carbon economy!

## ADVANCED EQUIPMENT

### Food Grade r-PET Production line

High Purity Sorting: 10-30 ppm Sorting Purity  
Food Grade Washing: Bottle to Bottle

Color Sorting  
High Impurity Removal Rate

# CERTIFICATION

The process technology and products have passed various certifications.

A close-up photograph of several stacked clear plastic bakery containers. Each container is filled with small, round pastries, some with white frosting and red fruit toppings. The containers are arranged in a stack, with the top one slightly offset. The background is softly blurred, showing more of the same containers. The overall lighting is warm and bright.
